Medical Learning Experience and Skill Development:
The program provides students with the opportunity to observe medical professionals in a hospital setting, gaining valuable insights into healthcare practices and procedures. Through guided observation, students can develop a deeper understanding of medical disciplines and patient care.

Community Health Outreaches:
The project focuses on organizing medical camps, where students actively participate in providing basic healthcare services and first aid training to underserved communities. By engaging in hands-on activities during the medical camps, students make a tangible difference in the lives of individuals in need.

Cultural Immersion and Exploration:
Alongside medical activities, the program incorporates cultural experiences to enrich students' understanding of Sri Lankan traditions and customs. Cultural presentations, visits to significant landmarks like Galle Fort and Unawatuna Peace Temple, and participation in local cooking classes create a well-rounded experience.

High School Special Schedule
Sri Lanka | 2 weeks
Welcome to our High School Special Medical Project in Sri Lanka! Are you ready to embark on an extraordinary journey where you'll gain valuable insights into the medical field and explore the captivating wonders of this beautiful island? Make a positive impact on local communities and immerse yourself in a rewarding healthcare experience.

Programme Goals:
**Day 1**

**Sunday**  
**Arrival to Sri Lanka**

Friendly representatives of Projects Abroad will eagerly await your arrival at Colombo airport. Their warm reception will include assistance in currency exchange and purchasing a new SIM card, ensuring a smooth transition. A dedicated Projects Abroad driver will then whisk you away to your accommodation, where excited host families will welcome you in their home. In the event of an early arrival, your supervisor has thoughtfully organized engaging activities to make the most of your time.

---

**Day 2**  
**Monday**

**Morning:** Dive into cultural immersion and a project briefing. Review your schedule and have an orientation at the hospital so you are equipped with the knowledge and context for effective project engagement.

**Afternoon:** Enjoy lunch in Galle and learn about local history by exploring Galle Dutch Fort.

**Evening:** Experience warmth and hospitality with a homemade dinner shared with your welcoming host family.

---

**Day 3**  
**Tuesday**

**Morning:** Begin with hospital observation in the assigned department, providing firsthand experience and insight into the healthcare environment. Each volunteer will have at least two days’ observation in the Surgical and Emergency wards until the following Monday inclusively.

**Afternoon:** Participate in a medical seminar reviewing the Sri Lankan healthcare system and methods for measuring blood pressure and sugar levels.

**Evening:** Join a daily briefing to plan for next day and have dinner with your host family.

---

**Day 4**  
**Wednesday**

**Morning:** Engage in hospital observation at your assigned department. Facilitate interaction with local staff and senior medical students for firsthand learning and collaboration.

**Afternoon:** Begin with a feedback and reflection session to review your experiences and to ask questions. The group will then visit Unawatuna Peace Temple and Jungle Beach for relaxation and contemplation.

**Evening:** Enjoy dinner with your host family.

---

**Day 5**  
**Thursday**

**Morning:** Engage in hospital observation at your assigned department for the day.

**Afternoon:** Join a cooking class at the host family (learn the art of preparing authentic dishes). Additionally, showcase your culinary skills by preparing a dish that represents your own country, creating an enriching cultural exchange.

**Evening:** Relax with your host family.

---

**Day 6**  
**Friday**

**Morning:** Engage in hospital observation at your assigned department.

**Afternoon:** Participate in an elders home community program, offering basic health checkups including BMI, blood pressure, and blood sugar tests, alongside donating essential sanitary materials to support their well-being.

**Evening:** Have dinner with your host family.

---

**Accommodation**
Host family

**Transport**
Private van and by foot

**Meals**
At the host family. During weekends and other programs meals will be taken from outside

**Timings**
This schedule is subject to change, however you will be advised in advance should this happen. Detailed plan will be discussed by the coordinator for each day.

---

**Responsible Travel**
We offset 100% of carbon emissions associated with your in-destination transport. We’re committed to being fully climate-positive by 2024!

By volunteering with us you’re helping reforestation efforts, protecting existing forests and providing employment to local communities around the world.

Day 7  
**Saturday**

**Morning:**
Engage in hospital observation in your assigned department.

**Afternoon:**
Prepare for a medical camp and first aid awareness program for an underprivileged community.

The group will participate in a feedback and reflection session to contemplate how their experience has been so far and what they have learnt.

**Evening:**
Play games and sports with the other volunteers before dinner.

Day 8  
**Sunday**

**Morning:**
Join a 5 hour guided tour with an assigned doctor to observe and learn about all functionalities at a rural base hospital. Gain insight into healthcare practices, patient care, and community impact using minimal resources.

**Afternoon:**
Join traditional games at Hikkaduwa Beach, promoting teamwork and camaraderie among volunteers while celebrating local culture and community spirit.

**Evening:**
Have dinner with your host family.

Day 9  
**Monday**

**Full Day:**
Embark on an exciting journey from Galle to Kandy. Explore a Spice Garden and Tea Factory, learning about herbs, spices, and tea production.

Visit the revered Kandy Temple and enjoy a traditional dance show. Conclude the day with a delicious dinner, experiencing the cultural wonders of Sri Lanka.

Day 10  
**Tuesday**

**Morning:**
Join a 5 hour guided tour with an assigned doctor to observe and learn about all functionalities at a rural base hospital. Gain insight into healthcare practices, patient care, and community impact using minimal resources.

**Afternoon:**
Join traditional games at Hikkaduwa Beach, promoting teamwork and camaraderie among volunteers while celebrating local culture and community spirit.

**Evening:**
Have dinner with your host family.

Day 11  
**Wednesday**

**Morning & Afternoon:**
Embark on a medical outreach event in an underprivileged area to the South, offering BMI, blood pressure, and blood sugar checks, along with free consultation by a local doctor and provision of medicines.

Additionally, conduct a first aid awareness program to empower the community with life-saving skills. Together, these initiatives aim to enhance healthcare access and promote well-being among vulnerable populations.

**Evening:**
Play board games in the evening with the group.

Day 12  
**Thursday**

**Morning:**
Join a Community Day where you will support a girls’ educational centre through a hygiene awareness program and help with cleaning and wall painting efforts.

**Afternoon:**
Engage in an immersive river safari through the serene mangroves of Madu River, visit Cinnamon Island, and explore a temple alongside fellow volunteers.

**Evening:**
Enjoy dinner with your host family.

Day 13  
**Friday**

**Morning:**
Travel to Colombo for a tour of a private hospital, exploring the distinctions between private and public healthcare in Sri Lanka. Gain insights into facilities, services, and patient experiences in contrasting healthcare sectors.

**Afternoon:**
Receive your project certificate and explore Colombo, embracing its history and culture as you mark the end of an impactful journey.

**Evening:**
Gather for a heartfelt farewell dinner, celebrating bonds formed and memories shared in Sri Lanka.

Day 14  
**Saturday**

The group members will likely be departing at different times, therefore the last 2 days may not be the same for everyone.

Your exact departure plan will be communicated with you directly by our local team. If you have longer to wait around, we will ensure you are comfortable and well looked-after.

You will have the continued support of Projects Abroad staff right until you are safely at the airport to board your plane back home.
Personal Achievements

- Complete a total of 40 service hours
- Gain first hand exposure to the medical field
- Develop cultural competence
- Acquire practical skills
- Make a positive impact through outreach events

Student Learning Outcomes

Intercultural Competence
- Students will be immersed in different cultures, gaining an understanding of their role within our global community and developing a deeper cultural awareness.

Leadership Development
- Students will be pushed out of their comfort zones, experiencing new challenges each day. They will build their confidence and resilience through team activities and new life experiences.

Healthy Active Living
- Students will be encouraged to prioritise their self-care, enhancing their physical and mental well-being.

Empowerment
- Students will be empowered to think for themselves, challenging the “status-quo” and cultivating transformative decision-making mindsets.

Global Citizenship
- Students will be exposed to new perspectives, engage with real-world challenges and contribute to sustainable development initiatives.
